#### SYSTEM STRUCTURE

Choice of profiles: 68 mm, 78 mm, 88 mm in two types of wood: three- or four-layer solid scantling: meranti with a density of over 450 kg/m<sup>3</sup>, pine.

#### Standard:

- MACO MULTI-MATIC KS fittings with 2 anti-theft strikers with Silber-Look anti-corrosion coating for long-lasting protection and smooth operation of the fitting
- sash lifter (lifting mishandling device depending on window height)
- microventilation in tilt and turn windows
- hinge covers in 4 colours: white, silver, light brown, brown
- 3 gaskets
- 2-glazed (1-chamber) units infilled with argon gas with  $Ug = 1.1 W/(m^{2}K)$
- glass-pane spacer made of galvanised steel
- drip cap facilitating water drainage
- aluminium handle

standard colours for the wooden part of the window p. 60, for aluminium RAL matt color: white (7016), anthracite (9016)

# EXTRAS

A wide range of accessories enables you to fully personalise your windows and terrace systems. With us, you will create a window joinery that meets your expectations.

43

## MUNTIN BARS

Create an elegant and yet unique look for your windows. The wide configuration options combined with the available colours make it possible to create many interesting arrangements.

Muntin bars can be used on all our window and terrace systems.

**(i)** 

\*For the option of making a particular design from muntin bars, ask your dealer or contact Drutex's Technology Department.

#### INSIDE GLASS MUNTINS

### Internal aluminium muntin bars

Internal muntin bars in widths of 8 mm, 18 mm, 26 mm or 45 mm. Available colours: white, gold, silver, golden oak, dark oak, mahogany, nut, macore, winchester, RAL 8022 (ask your dealer for the other colours).

#### Available for:

aluminium

wooden-aluminium

#### **GLUED-ON MUNTINS**

### Wooden glued on muntin bars

Glued on muntin bar in widths of 26 mm or 36 mm. Available in our colour palette (p. 60).

Available for:

wooden

## BALCONY THRESHOLDS

The balcony thresholds we offer are characterised by the highest ergonomics in use, durable construction and a high degree of thermal insulation. They are ideal for any climate zone.

#### ALUMINIUM THRESHOLD 32 MM FOR MB-86 SI

#### STANDARD FRAME FOR ALL ALUMINIUM SYSTEMS

#### ALUMINIUM THRESHOLD FOR SYSTEMS: SOFTLINE, DUOLINE

## STANDARD FRAME FOR ALL WOODEN SYSTEMS

## HANDLES

The handles used in our products are made of aluminium and are distinguished not only by their elegant design the colour options, but also by their ergonomic shape. Handles can be supplied with options with a key or pushbutton to prevent unintentional opening (an option particularly recommended for children's rooms).

## NON-STANDARD DESIGNS

We also offer non-standard window designs in systems:

- MB-86SI
- MB-70 / MB-70HI
- MB-45
- SOFTLINE
- DUOLINE

For confirmation of a non-standard design, contact your dealer or Drutex's Technology Department.

## CREATE YOUR OWN UNIQUE STYLE

D

## FITTINGS

The fittings used by DRUTEX are the perfect solution in terms of security and functionality of the window and door joinery.

The fittings used by DRUTEX are the perfect solutionin terms of security and functionality of the window and door joinery.

STANDARD HINGES

CONCEALED HINGES invisible when window is closed

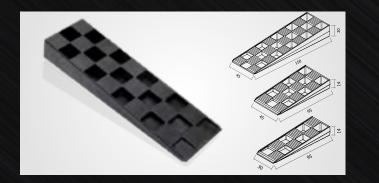

## TRANSOM WINDOW LOCK

allows the transom window to be opened or closed mechanically in places that are difficult to access (e.g. due to the height of the transom window).

Option of ordering mounting wedges used to level window and door frames during the installation.

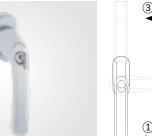

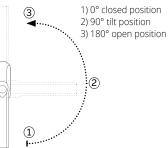

REED SWITCH magnetic window and door opening sensor is a part of the Smart Home access control system or alarm system

FRICTION BRAKE protects against spontaneous opening or closing of window and door sashes

**TBT (TILT BEFORE TURN) FITTINGS** tilt position before opening - key protection against full opening of the window

## FIXING AND MASKING ANGLE PROFILES

The use of fixing and masking angle allows windows to be installed without removing the old window frames. This solution is successfully used in historic buildings or where exceptional care is required for the building facade.

Available colours p. 58-59.

## VENTILATION

Aiming at providing the highest living comfort, Drutex offers high-quality ventilators that ensure proper ventilation and fresh air when the windows are tightly closed.

#### **INTERNAL VIEW**

#### Aereco EMM hygro-regulated ventilator

- RAL: 8001, 8017, 7016, 7045.

For the application of ventilation in PSK systems, consult the DRUTEX's Technology Department.

\*Measured at 10 Pa - data obtained from the ventilator manufacturer.

#### **BENEFITS OF USING VENTILATORS:**

- modern, natural and healthy ventilation
- improved air exchange

- thermal comfort in the room (no feeling of draught as with tilted windows)
- possibility of adjusting the air flow in accordance with the weather conditions

Radaks Available colours: white (gaskets in black or grey).

Maco Vent

Available colours: white (gaskets in black or grey).

reducing the risk of damp rooms and the fungal and mould growth

security

wide range of options: wooden windows, PVC windows, aluminium windows.

Regel - air Available colours: white (gaskets in black or grey).

RENSON THM 90 ventilator with a drip cap

Available colours: - RAL: 7016, 8019, 9005, 9006, 9016, - Ask your dealer or our sales department about custom colours.

## ALUMINIUM WINDOW COLOURS

#### RAL 7016 MATT AND 9016 MATT AS STANDARD

In the interest of producing the highest quality doors, based on one of the world's most modern powder coating plants, Drutex offers a wide range of paint coatings colours. Among them, depending on the expected aesthetics, metallic paints with structure, matt paints, or even paints ensuring special effects.

The colour scheme also applies to the aluminium parts of the DUOLINE product line.

## WOODEN WINDOW COLOURS

The rich range of opaque paints, provides 100% protection for the wooden structure. Transparent paints (azure) emphasise the structural characteristics of the given wood type and display the appropriate tint at the same time. The wooden exterior doors are a perfect solution for clients who value not only classic designs but also modern trends.

The colour scheme also applies to the wooden parts of the DUOLINE product line.

Non standard colours according to RAL.

#### STANDARD COLOURS

#### **PINE** ILLUSTRATIVE COLOURS

MERANTI

**IMPORTANT** - as an option for the DOULINE system, we offer a clearcoat for the wooden part of the window (from inside).

## GLASS PANES

We offer many types of glass panes that are characterised by the highest quality of workmanship. Choose panes for your windows that will meet your expectations and give your interior unique character.

We have been manufacturing multiple glazed panes since 1994. We have a state-of-the-art glass tempering plant and our own research laboratories, which ensure the highest quality.

The glazed units we manufacture can be fitted with special capillaries to equalise the pressure inside the glass with atmospheric pressure. Thanks to this solution, the glazing packages will perform perfectly in your premises.

Option to sandblast the glass in any way you wish (in 3 shades of grey)\* or to use ready-made designs.

#### INFILLING MATERIAL

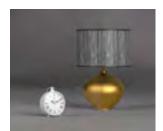

**ARGON** - all glazed units are infilled with argon gas as standard, which guarantees very good thermal insulation. This has resulted in glazed units with Ug value of between 1.1 and 0.5 W/(m<sup>2</sup>K).

3-pane (2-chamber) 48 mm units with glass-pane spacer made of galvanised steel.

## GLASS-PANE SPACERS

The glass-pane spacers contribute to the thermal insulation of the glazed units. Drutex already offers glass-pane spacer made of galvanised steels as a standard, which are characterised by very good thermal insulation, much better than aluminium spacers. The Swisspacer Ultimate plastic spacer is available as an option.

### Glass-pane spacer made of galvanised steel

is provided as standard with every glazed unit.

#### Swisspacer Ultimate

Optional Swisspacer Ultimate glass-pane spacer available in black, brown, grey.

### SMART HOME with everything under control

Intelligent control systems for window automation via remote control, tablet or smartphone are becoming increasingly popular with customers, allowing the system to also be managed remotely while they are away.

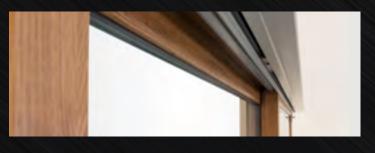

There is the option of opening and closing windows individually, in groups as well as time-based programming and connection to other intelligent systems in the house.

This is an investment in comfort and functionality at the highest level.

## G-U AUTOMATICS

A modern system designed for HS system solutions. Functions:

- opening and closing
- operation via remote control and/or smartphone app

www.drutex.eu <u>66</u>

#### TaHoma® switch

Windows, doors, roller shutters, Venetian blinds, gates and wickets that, thanks to the intelligent control unit from Somfy - TaHoma® switch, can open or close by themselves at selected times of the day, can tilt or slide in integrated groups or individually, offering us full control and surveillance of our home, even when we are not inside. The TaHoma® switch also allows us to manage the lighting in the house and garden.

#### BleBox product line

These are miniature devices that allow you to open and close doors, windows, roller shutters, awnings, Venetian blinds, gates, manage lighting or the alarm system via your smartphone and tablet - even from anywhere in the world.
